## Freezing rain follows dip to eight degrees

By ELLIS CUEVAS  
and BRENT MACEY

Water pressures in both Bay St. Louis and Waveland are down recently, reduced because of frozen and broken pipes which are causing a heavy drain on the systems in both cities, Mayors Larry Bennett and John Longo report.

Both mayors urged consumers to use as little water as possible because of the low water pressure.

Bill Johnson, Bay St. Louis utility department head, reported Wednesday, all reservoir tanks in Bay St. Louis are empty even though all three of the city's pumps are working 24 hours a day.

He estimated the normal water pressure of 60 pounds per square inch to have dropped to between eight and 10 pounds.

Temperatures dropped to eight degrees early Monday and below freezing Tuesday mixed with rain and sleet to cause hazardous driving conditions.

A few citizens in Waveland lost heat early Monday morning for several hours due to low water pressure, Longo said.

Bennett and Longo have requested all business establishments to use as little

gas as possible during this cold spell. William Field Jr., president of the Hancock County Firemen's Association and Bay St. Louis Fire Chief Andrew Lizana request all citizens to use as little water as possible.

The firefighters also are urging residents to be extremely careful with heating equipment.

Hancock County crews began sanding bridges at 8 a.m. Tuesday. Sheriff Ronald Peterson summoned extra deputies to help with traffic control.

At 9 a.m. Tuesday Peterson said, "I have six deputies in the rural areas and two in the south now working."

The Bay St. Louis bridge was one of

the first to freeze over Monday morning when Patrolman Larry Ladner witnessed a motorist crashing into the guard rail in the east-bound lanes at 7:25 a.m.

The driver of the vehicle, Pham Tan Ut, Long Beach was reported not injured.

## Temperature

## hazardous for firefighters

By ELLIS CUEVAS

A Shoreline Park couple escaped their burning residence through a back window with temperatures hovering at nine degrees Monday morning.

Keith and Pamela Birch, residents of Glenn Street in Shoreline Park, awoke as their house was in flames and heavy with smoke.

Cold weather hampered Hancock County firefighters efforts in fighting the blaze as pumps and radiators froze on several units enroute to the fire. Two floaters, numbed, were rendered ineffective by the cold.

Fire units from East Hancock

## Bits 'n pieces

By Ellis  
Cuevas

We were really disappointed last Saturday when we took the photo of the first baby for 1982 born at Hancock General Hospital and found out no special gifts were provided to the parents and child.

We feel someone somewhere down the line has missed a good opportunity of providing a service which is something just about every community in the nation provides for the first baby born each year.

A little effort on the part of some organization or group could provide some very good public relations for Hancock County.

We hope next year Hancock County will be better prepared for its first arrival.

It has been 20 years since our weather has been so cold and miserable. It wasn't as miserable on Dec. 31, 1963 when we had the 12 inch snowfall as it was this week.

It was a terrible thing for firefighters to be trying to fight fires when the temperatures were below 10-degrees Monday morning when all the fire truck pipes and pumps froze.

Our firefighters just have never been involved in such harsh conditions in fighting fires. We have observed firefighters for many years in Hancock and have never seen them so at a loss as they were Monday.

It is amazing how things work out sometimes. The thing which really impressed us was the fact that the big 'Super-Duper' factory made tire units all froze and the Hancock County specially 'homemade' unit was the only one operational and helped firefighters save a large boat shed and another home very close to the one destroyed.

We do feel in all honesty it would have probably been impossible for the home which was destroyed to have been saved if all equipment was operating correctly as the fire had a very good start when the units arrived at the scene.

We cannot recall when all of our bridges were frozen over in this area and all traffic had to be stopped in every direction.

We took some photos on the Bay Bridge and also on the Bayou LaCroix Bridge and it was hard to stay on one's feet as the ice was forming in a hurry on Tuesday morning.

We seemed to suffer more serious problems Tuesday when temperatures were about 10-degrees warmer than on Monday.

The rain and sleet attributed to the shutdown on Tuesday.

Well we have had our share of warm weather and now it looks like the cold is going to catch up.

Water pressures have dropped severely due to frozen and broken water lines.

Utility companies are struggling to get the pressures up to normal, but they really need the cooperation of everyone.

It is beyond our comprehension as to how some 'idiots' could take the caps off fire hydrants and turn the water on and flee with the water pressure as low as it is because of demand.

Now this wasn't just one fire hydrant, it was two near the storage tank at Tiger Field.

This happened Tuesday night and we urge anyone who may have seen some 'idiots' messing with fire hydrants to please give the Bay police or fire department a call.

This is not the first time for fire hydrants to be turned on in the Bay and the culprits may think it is funny, but would really be disappointed if their residence caught fire and firefighters had no water to put it out because of their funny stuff.

Water is a precious commodity and we have to protect what we still have.

## LETTERS TO THE EDITOR

### Band supporter wants equal share of publicity, blames newspaper

Jan. 11, 1982  
Sea Coast Echo  
Bay St. Louis

To the "Tiger Pride" Band:  
The letter of Stan Horne to the editor was simply a question. Why is nothing ever said about the other two bands in Hancock County?

I would like to make a few more comments to the letter:  
1. No - Mrs. Mihalek could not have been the only one who got a good deal of publicity. I have many contacts to help support the band.

2. Our band has been working hard

at the Tiger Pride work. We don't have money, either. In our work for the band, we have been working, criticizing, letters against the other bands.

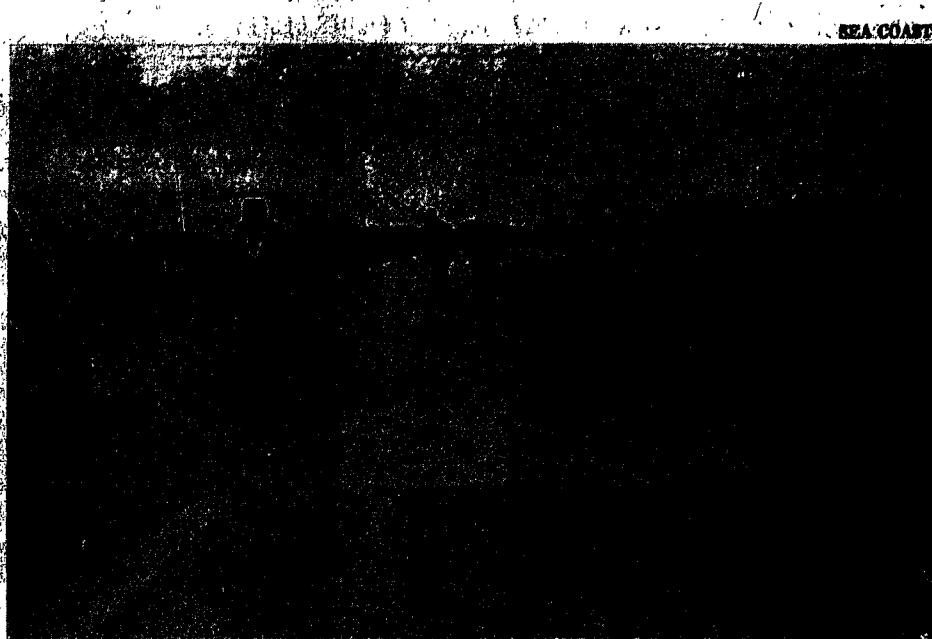

We are not saying that the Pride of Bay High School is not good. We are simply pointing out the other two bands deserve to be included in the Echo for people to know all of the bands in Hancock County, but that's about it.

3. I would like to make a few more comments to the letter:

### Sore throat gives

### signal of illness

Does your throat hurt?

If so, you have plenty of company. Sore throat is one of the more common physical ailments that plague most of us from time to time.

Sore throat is nature's warning that something in your body is out of order.

Often a sore throat accompanies a common cold and the soreness passes in a few days.

But sore throats also can be the symptom of any of a wide range of diseases, from diphtheria to leukemia, that require the doctor's skill, not your guessing, to diagnose.

Sometimes tonsils and adenoids are involved in causing sore throat. When these organs repeatedly cause trouble, they are removed.

Tonsil-adenoid removals, while not performed as often as in the past, remain a major part of all surgery performed on young children. Sometimes the removal helps the sore throat, sometimes it doesn't.

The American Medical Association points out that allergies can cause sore throat. Cold, dry winter air can trigger

it. So can extreme thirst, excessive smoking or mouth breathing.

Anything that dries out the throat and cuts off secretions that normally wash away.

Virus infections of many types also cause sore throat. The flu virus often causes the throat to hurt.

Strep throat is a serious infection that occasionally leads to rheumatic fever and possible heart damage. It can be overcome with penicillin, if it is diagnosed in time.

The crucial diagnostic test is sore throat is the swab test through which the germs causing the trouble can be identified.

There is little you can do to cure a sore throat at home. Gargling with warm salt water relieves the discomfort temporarily, but the cure must be launched by your doctor. If the sore throat persists for several days, seek medical help.

NEWS  
FROM THE  
GOVERNOR'S OFFICE

In a speech to a joint session of the Mississippi Legislature this week Governor William Winter stressed the need for continued governmental belt tightening and greater efficiency in the operation of State Government.

Winter also called for the establishment of a trust fund, financed by an increase in the oil and gas severance tax, to improve public education and economic development.

Winter, a longtime proponent of governmental consolidation and streamlining, noted that "your state government is operating leaner, slimmer and more efficiently now than it was when we began this administration two years ago. We have worked hard to eliminate waste, inefficiency and mismanagement with the result that we are now operating state government with fewer departments and with 1,000 fewer employees than we had in comparable position two years ago."

Winter commented that in an effort to make government more frugal and insure the most efficient use of tax payers' dollars, we have streamlined the budget process and we have reduced expenditures by some \$60 million below what the 1981 Legislature authorized.

The governor told the assembly of legislators that he would veto any bill that threatened the fiscal integrity of the state.

Winter devoted the bulk of his speech to a call for the establishment of an economic development and education trust fund. He called the trust fund "a long-term investment."

He could enable us to make significant economic and educational advances that would make us more competitive states, Winter said.

The revenues from the trust fund would be used for the construction of a statewide transportation system, a more effective system of vocational and technical training, improved public library and museum services, and many other needs in the state.

A constitutional amendment would be required to establish the trust fund. Winter said the oil and gas severance tax would be increased to 12.5 percent.

has a considerably higher tax at 12.5 percent.

"I recommend setting aside a modest part of the revenue from this non-renewable resource so that once our oil and gas are gone, we will have an endowment to help succeeding generations of our people by educating them and enabling them to be more economically competitive," Winter said.

Winter noted that extensive study shows that a modest increase in the severance tax will not hinder oil and gas production. Moreover, the hike will not be felt by Mississippi consumers since most of the oil and gas produced in Mississippi comes from Louisiana and Texas.

The Governor, who has linked the state's ability to attract new industry to an improved public education system, said new revenue generated by the severance tax increase should be placed in a trust fund to finance future programs, including education.

The state's existing oil and gas severance tax, which is 6 percent of the value of everything that comes out of the ground, is shared by the state and the producing counties. Under Winter's plan, that tax would be increased to 12.5 percent. The entire increase would be earmarked for special educational and economic development programs.

The "extra" interest generated by the trust fund would be used to finance the governor's education initiatives.

What do you do when the lights and power go out when you're in the middle of cooking ground beef, equally at home down a round steak in its own at the cocktail table or combined with mushroom or no-meat sauce to make that Creole special? Well, that's what happened to a friend of mine during our recent icy, stormy weather. Here's what she did:

**BURGUNDY BALLS**

1 lb ground beef  
1/2 cup water

1 slice white bread, toasted

1/4 cup chopped onion, some

garlic

1/2 tsp. salt, pepper

3 Tbsp. flour

Additional 2 cups water

1 cup Burgundy wine

1 Tbsp. brown sugar

Pour the one-third cup of water over the bread, then add the ground beef, onion, salt, onion and parsley, and mix in well together.

Shape into balls (you'll have about 4 dozen, more or less, and brown in a little oil or fat, a tablespoon or so). Remove the balls from the pan, and leave only two tablespoons, approximately of drippings in the pan. Add the flour and stir until brown, then add the remaining water stirring in well until smooth, slowly does it.

Add the wine and brown sugar, and cook all slowly, stirring all the while, for 20 minutes or so, till nice and thick. Return the meat balls to the pan, and just heat through.

Sometimes I add a dash of butter, while mixing the meat, etc., together, and of course I add that dash of hot pepper sauce.

(Copyright 1982, Katharine D.M. Cate.)

Then start thinking of the many dishes which can be cooked in cast iron kitch and such as sauteed chicken or turkey, ham, omelets, all the delicacies with which Victorian housewives used to display to their beauties their culinary skills.

So, even though I had cooking facilities, I decided to get out the cast iron and use it for the Burgundy Ball. I was planning to make later that day. (This can be cooked just as well on the gas or electric stove, at low to

PLAN REUNION—Brother Aquil Gauthier of St. Stanislaus High School in Bay St. Louis, left, and Tommy Kidd of Waveland, member of the school's Class of 1957, plan a 25th anniversary reunion of Kidd's class as well as the Classes of 1942, 1943, 1947 and 1972 at the Jefferson Orleans Hotel in Metairie, La. Saturday, Jan. 22.

## Stanislaus alumni schedule reunion

The St. Stanislaus High School Alumni Association will hold its annual alumni reunion Saturday Jan. 22, at the Jefferson Orleans Hotel in Metairie, La. starting at 7:30 p.m.

Many of the Brothers of the Sacred Heart and faculty members who have taught at St.

Stanislaus in the past will be in attendance.

This year the alumnae association will honor the five classes celebrating a ten year period since their graduation.

—Classes of '42, '43, '47 and '72—and the class celebrating

its 25th year since graduation, Class of 1957.

Certificates recognizing the

time since graduation will be given to those alumni of the honor classes who are in attendance.

This alumni reunion is open to all alumni of St. Stanislaus and their wives or dates.

Reservations may be made in advance through the Alumni Office at St. Stanislaus.

### IRISH REBELLION

Brian Aherne and Merle Oberon star as the Irish patriot and the English girl who must place duty before love in "Beloved Enemy," to be presented on "Film Classics" at 9 p.m., Thursday, Jan. 14, on the Mississippi ETV Network.

The story takes place in Dublin in 1921 against the turbulent background of the Irish Rebellion.

Aherne is depicted as a man who dedicates his life to a cause and his love to a woman.

On the other side, she is torn between love and duty to her country and must decide which sacrifice she will make.

# School board ok's land sale

By BRENT MACKY

Bay St. Louis School District trustees Monday debated whether or not to sell two lots of land on Commagere Boulevard and then agreed to sell the lots at a sales price some \$1,500 less than the appraised market value.

According to Superintendent J.D. McCullough, the lots, each 30 feet by 130 feet, were purchased several years ago when the district was considering construction of a second access road to Tiger Stadium.

## Freeze.....

CONTINUED FROM PAGE 1A

Bay St. Louis Police Chief Douglas Williams said numerous vehicles stalled throughout Bay St. Louis Tuesday with many sliding into ditches.

Donald Dorn, Waveland's chief of police, Wednesday reported no accidents in that city Tuesday, adding, "I do not know what tonight or tomorrow will bring."

Waveland has only two small bridges on South Street.

Chief Lizana and Bay police are investigating the removal of the caps off two fire hydrants.

Culprits then turned the hydrants on and left them running Tuesday night. The two fire plugs were reported to the fire department by a resident near the water tower at Tiger Stadium.

Traffic in or out of Bay St. Louis was completely stopped for several hours Tuesday caused by rain and sleet icing all access bridges.

All officials indicated they will be keeping a close eye on the weather Wednesday night and Thursday morning.

Temperatures are expected to dip into the mid-twenties mixed with rain, sleet and snow for the area, according to late weather reports Wednesday.

Sheriff Peterson asked for persons to go out only if necessary Thursday if conditions are the same as they were on Tuesday.

**SALVATION ARMY REACHES OUT TO HELP INDIVIDUALS AND FAMILIES. YOUR UNITED WAY SUPPORTS THIS ORGANIZATION.**

## Molotov.....

CONTINUED FROM PAGE 1A

According to Lizana, among those responding to the fire were Lizana, Price, Capt. Mike Willimutis, Lt. Anne Penney, Lt. Alphonse Sheppard, Gary Maurice and Marty Blackstock, all Bay firefighters, as well as East Hancock Volunteer firefighters.

In other county arson investigations, Ed Friloux, arson squad member, reports the arrest of one person Sunday for allegedly starting woods fire which destroyed approximately five acres.

Friloux said, "At 2:20 p.m. Sunday we received a telephone call about a woods fire on Tomahbee between Jordan Street and Waveland Avenue. Two houses and an auto were threatened."

"Daniel T. Rush was arrested and

he noted the school district never constructed the road and stated, "We have no use for the property now and it is only an additional expense to keep the grass cut in the summer time."

The lots are appraised \$5,500.

The one and only bid received by the trustees was from Mrs. Ben Hille, who bid \$4,000 for both lots.

Trustee James Ginn noted the two lots adjoined her property.

Trustee James Singleton noted, "The bid is a little low" and Board President

Walter Turcotte stated, "I'm a little old-fashioned and I'm against selling to anything I own."

Ginn noted lots currently are not selling very rapidly on the real estate market. He added, the lots only have a total of 60 feet frontage on Commagere Boulevard—barely enough frontage to allow construction of a building.

After taking those thoughts under consideration the board agreed unanimously to sell the property.

In other business, the trustees agreed to advertise for bids on repairing one and maybe two bathrooms in the upper portion of Bay Junior High School by

McCullough said the restrooms were not deplorable but needed to be fixed.

Also Monday, the board approved scheduling the Bay High School Invitational Basketball Tournament Jan. 24-25, and also approved having the basketball team compete in the Deep South Conference Jan. 27-30.

## Burglaries.....

CONTINUED FROM PAGE 1A

He turned around and walked away from the counter and then returned and asked for change for a quarter. When the cashier gave him the change he turned around to leave and then pulled a knife, turned back toward the cashier, and told her to give him everything in the cash register."

Williams said the cashier backed away from the cash register and told the culprit to take what he wanted.

"Apparently he reached over the counter and tried to open the cash register but the door was jammed and he couldn't open it," Williams said.

The man left without any money. The cashier immediately called police.

Assistant Police Chief Jerry Green and Patrolman Larry Davis are investigating.

Williams said the culprit was a young, light-complected black male approximately six feet tall with a slender build and a dark mustache.

## Ducks Unlimited stages

### 4th annual banquet

ALVIN LADNER RECOGNIZED—Hancock Investigator Alvin Ladner was presented a plaque by the Mississippi Gulf Coast Crime Commission last week. The plaque, stated, "In recognition of outstanding law enforcement efforts." Ladner is one of two investigators employed by the Hancock County sheriff's office. (Staff photo by Ellis Chevas).

CONTINUED FROM PAGE 1A

charged with woods arson, a minor misdemeanor, when he apparently built a trash fire which spread to the woods," the arson investigator stated.

A preliminary hearing is scheduled before Hancock County Justice Court Judge Bruce Nease on Jan. 20.

Friloux and Jay Marsh, also of the arson squad, are also investigating the origin of four fires between 4:30 and 6 p.m. Sunday in the BaySide Park area.

Friloux allowed, "The winds were northerly at 15 miles per hour and the humidity was low Sunday which made ideal conditions for the arsonists. We have several leads as to who started the four fires and are hoping to make an arrest soon."

Don Bales, also of Picayune, displayed his masterful work of mounted wildlife.

The Hancock County Cha-

pter sent a check to national headquarters of Ducks Unlimited for \$4,500, a 25 percent increase over last year's efforts for raising funds for restoring and rehabilitating prime waterfowl breeding grounds.

Those who helped make this year's banquet a great success include WXOR radio for airing D.U. announcements, the Sea Coast Fish for their articles and announcements about D.U.'s activities, and the area merchants for their support involved in and supporting our local chapter of Ducks Unlimited, a chapter spokesman reported.

Willimutis, an avid supporter of D.U., donated one of his own works, a watercolor entitled "Pascagoula Decoy," to the local chapter and it was auctioned at the banquet along with an oil base by Church, as well as, nationally selected prints and decoys.

Don Bales, also of Picayune, displayed his masterful work of mounted wildlife.

The Hancock County Cha-

FIRST BRIDGE MISHAP—Bay St. Louis Patrolman Larry Luther surveys the damage to a vehicle driven by Pham Van Tu, Long Beach, which crashed into the railing of the Bay St. Louis U.S. 90 bridge at 11:30 a.m. Tuesday, Nov. 10, 1974, while driving the bridge to Hobe, reported the accident and called a wrecker to remove the vehicle which sustained heavy damage to the front, including a blown-out tire. Chief of Police Douglas Williams reported many vehicles were stalled because of the extreme cold and icing and many slipped into ditches. The bridge across the Bay of St. Louis was closed for most of the day and all drivers to Hancock County. (Staff photo by Ellis Chevas)

## Temperatures.....

CONTINUED FROM PAGE 1A

Volunteer, Waveland, Bay St. Louis, Clermont Harbor and Diamondhead Fire Departments and 25 Hancock fire fighters answered the call according to Bill Field Jr., president of the fire fighters association. East Hancock and Clermont Harbor had fire trucks at the scene.

Burch said, "When I woke up and

looked down the hall, it was full of smoke and flames. I put on my pants, and my wife with her nightgown grabbed a robe and we opened a back window knocked out the screen and dropped to the ground."

"We went around to the front of the house and broke a window to get in to use the telephone and call for help," Burch added.

The house, owned by Burch's father-in-law Warren Peres was completely ablaze when Bill Field III arrived with one of the Waveland fire trucks followed by other units.

Burch suffered several cuts on his hands when he re-entered to get to the telephone. The couple is now living temporarily with his parents in Bay St. Louis.

Field Jr., also at the scene after the 7:20 alarm was turned in, said a workshop next to the house with an unoccupied apartment above was on fire in addition to the residence.

Firefighters were able to get two small pumpers working and were able to protect a boat shed and residence next door.

Burch reported there was a boat in the bathroom and the door was forced open in order to remove it from the front of the fire.

The origin of the fire is being investigated by the Hancock County Arson Squad.

While firefighters were at the Shoreline Park fire, Fields Jr., said an 18-wheeler was on fire on Hwy. 603 a few blocks away.

"It was a small fire and firefighters quickly extinguished it and the trucker continued on his service station for repairs. The firefighters failed to get the name of the trucking company or driver," Field reported.

## January Clearance SALE

### 1/2 PRICE! DRESSES

Originally 48.00-100.00

### 1/3 to 1/2 OFF! COATS

## SCOWI krewe celebrates at second annual ball

**SCOWI.** Following the introduction of the queen, the krewe recently conducted their Second Annual Ball at the American Legion Post 77 in Waveland.

The theme of the 1962 ball was "Remembrance of the Gay 40's. The hall was colorfully decorated for the occasion by the krewe under direction of set designer Nevin Nichols.

As customary in keeping with Mardi Gras tradition the guests and krewe first honored last year's Queen, Mrs. Louella Culbreth.

Mrs. Culbreth was escorted by Joseph Servat, president of

## Museum accepting group bids for exhibition

The New Orleans Museum of Art is accepting group reservations for special viewings of "The Search for Alexander" on display June 27 through September 19.

This international exhibition will provide an opportunity to experience the romance, history and legend associated with Alexander the Great (356-323 BC).

It also gives a rare glimpse of the art of Macedonia in northern Greece with its craftsmanship and virtuosity.

Group reservations (prior to and after general public hours) for a guaranteed time of admission provide the easiest and most pleasant way to experience the exhibition, a museum spokesman reported.

A varied selection of options is designed to accommodate the needs of almost any group club or business.

The following reservation options are available to groups: special morning viewing on Wednesday or Saturday with options for coffee and Greek pastries and/or lecture (minimum 20 persons); special evening viewing on Wednesday with options for wine and Greek hors d'oeuvres and/or lecture (minimum 20 and maximum 60 persons); special evening viewing on Friday at the Museum followed by a festive Greek night at the Hellenic Cultural Center, featuring cocktails, dinner and entertainment (minimum 150 and maximum 300 persons).

Also, private evening viewing on Tuesday, Friday, Saturday or Sunday at the Museum from elegant black tie to cocktail receptions (minimum 100 and maximum 1,000 persons).

For further information concerning group reservations, call the Activities Coordinator at 488-2631 or write, New Orleans Museum.

## Defense Association plans Thursday meet

The newly-organized Lake Ponchartrain Chapter of American Defense Preparedness Association (ADPA) is conducting its first general membership meeting January 14 at Broadwater Beach Hotel in Biloxi at 6:30 p.m.

General Henry A. Miley Jr., National ADPA chairman, will give the keynote address. The chapter received its charter from Gen. Oliver Lewis, ASPA vice president for chapters. Ceremonies will be held at National Space Technology Laboratories.

Jerry Hiss, NSTL manager, was special guest at the charter presentation.

ADPA is an educational, scientific, engineering, non-political and nonprofit organization founded in 1979 as the Army Ordnance Association. The common bond of interest is a firm determination to achieve peace through industrial preparedness and national strength as represented by U.S. Armed Forces.

The ADPA officers, all NASA-NSTL personnel, are Jack Evans, Computer Sciences Corporation (CS), president; Everett Sampson, Major Chamberlain, vice-president; Lt. Col. Walter Blasius, Mississippi Army Ammunition Plant, commanding officer; Secretary, Bob Arnold, CSC treasurer; and Fred McIntyre, CSC national council representative.

The Lake Ponchartrain Chapter currently has 10 members, of which 10 reside on the Mississippi Coast and 10 are from other parts of the country.

The Chapter encompasses

of Art, P. O. Box 10123, New Orleans, La. 70120.

"The Search for Alexander" was coordinated in the United States by the National Gallery of Art, Washington, D.C.

The exhibition has been made possible by the National

Bank of Greece and TIME Incorporated; and with the cooperation of the Greek Ministry of Culture and Sciences. The audiovisual section of the exhibition has been made possible by a grant from Mo-

re. The exhibition has been made possible by the National

## GCRL scholarship competition reported

College students who wish to submit entries for the Gulf Coast Research Laboratory scholarship award must do so before February 18.

Entries must reach the director of the laboratory two weeks prior to the annual meeting of the Mississippi Academy of Sciences.

The scholarship will be awarded, the recipient will be announced during the meeting, March 4-6, in Biloxi.

An entrant must be a bona fide student of a Mississippi university or college (including junior colleges), and be a regular or student member of the Academy of Sciences.

To enter, the award competition, a student must submit two copies of a manuscript describing his or her independent research in any field of science; it must be accepted for presentation at the upcoming annual meeting of the academy.

Manuscripts should be submitted to Dr. Harold D. Howe, Director, Gulf Coast Research Laboratory, Ocean Springs, MS. Further information on how to submit entries is available on request.

The scholarship pays for tuition, room, and board for a full summer of academic studies or research in the marine sciences at the campus in Ocean Springs.

# Southern Association accredits Pass schools

The Southern Association of Colleges and Schools, through its Commission on Elementary Schools, awarded accreditation to Pass Christian Middle School, Pass Christian Elementary School and Delisle Elementary School during the association's 40th annual meeting in Dallas, Tex., in December.

A certificate of special recognition was presented to the Pass Christian School District and accepted by Leroy L. Zane, superintendent, for successfully completing a ten year comprehensive self study for continuing accreditation.

The accreditation of schools and systems is based on an evaluation of each school to determine if it meets not only the needs of the students and community, but also the standards of quality of the commission.

The evaluation process includes self study by the school and review by a visiting committee of professional educators representing the association's fifteen elementary schools and systems.

The Southern Association is a voluntary, non-governmental agency composed of more than 11,000 colleges and universities, vocational institutes, and secondary and elementary schools.

Headquartered in Atlanta, it is one of six regional accrediting associations in the United States and encompasses 11 southern states from Virginia to Texas.

The purpose of regional accreditation is to improve the quality of education. Each member school and system must carry on a continuing program of improvement and, to maintain its accreditation, must submit annual reports and undergo periodic re-evaluation.

As a part of the requirements for continuing accreditation in the association and continuing accreditation by the State of Mississippi, member schools are required, every ten years, to conduct a program for re-evaluation.

The complete re-evaluation as required for accreditation is a three phase process: self-evaluation by the school, faculty evaluation by a visiting team and the schools' considerations and follow-up of the findings of these evaluations.

The Pass Christian Elementary School conducted an evaluation of its programs during the 1980-81 school term.

Following completion of the self-study and upon recommendation for continuing accreditation, a visiting committee of educators were selected to come and investigate the program to determine how well the school district was implementing all standards of the accrediting commission.

The members of the visiting committee serve as the official representatives of the Southern Association of Colleges and Schools.

In this capacity they assess the extent to which standards are being met and provide professional consultative services to faculty by reviewing the self-study and making suggestions for continuing school improvements.

Visiting committees are made up of educators and administrators. The chairman of the committee is appointed by the chairman of the visiting committee and the committee works in cooperation with the 40 administrative heads of the

school district seeking accreditation. The members of the committee are appointed by the chairman of the state committee in cooperation with the chairman of the visiting committee.

A visiting committee conducted an evaluation of the elementary schools in the Pass Christian School District during the month of November.

Four teams of evaluators spent three days in the school district, conducting an evaluation of the Pass Christian Elementary, Pass Christian Middle School, and Delisle Elementary, School during the association's 40th annual meeting in Dallas, Tex., in December.

A certificate of special recognition was presented to the Pass Christian School District and accepted by Leroy L. Zane, superintendent, for successfully completing a ten year comprehensive self study for continuing accreditation.

Visiting committees are made up of educators and administrators. The chairman of the committee is appointed by the chairman of the visiting committee and the committee works in cooperation with the 40 administrative heads of the

school district seeking accreditation.

On the basis of the self-study report and the plans for improvements as set forth by the self-study committee.

During the exit conferences, held at each school, the committee noted that throughout the school district there was evidence that the school district was making a concerted effort to implement its stated objectives and philosophies.

Special note was made of the excellent rapport among students, faculty and administration. The committee members made special note of the condition of the physical facilities and commended the school district for the organization of its program for learning.

## Cultivation of independence essential to single's happiness

Single persons can lead richer, more satisfying lives by placing themselves on an equal basis with other people and by taking care of themselves, according to a counselling psychologist at Mississippi State University.

It is a matter of making choices and of what we tell ourselves about those choices.

"Decide what you want to do with being single," said Dr. Jeanne Lee, assistant director of the MSU Counseling Center.

"If you want to be a hermit, you can be one. If you want to have relationships, then put some time and energy into

planning ways of having relationships."

According to Lee, it is important to "clean up your self talk."

You want to look at what you are saying to yourself about being single. If you tell yourself that this is the pits, the worst thing that could ever happen to you, then you certainly aren't looking after yourself and caring for yourself."

She said seeing life's events as opportunities can be helpful in being happy.

"Then you can make the self statement, 'Here I am in a situation in which I can create

anything I want to create. I want to create something positive, so how am I going to do that?'

She suggests planning such activities as:

"Taking up a new hobby."

"Trying something you've never tried before. That could include eating out by yourself, planning a vacation or a trip by yourself."

"Taking yourself out for some special event, or buying yourself a Christmas, birthday, or Valentine's Day present."

"Treating yourself to anything that would be special."

"Life doesn't always happen in twos," Lee said. "See

anything you've never done alone as a wonderful opportunity to do something. It may not be your number one most wonderful thing to do, but it beats sitting at home feeling lonely, isolated, and alienated."

Lee said waiting on someone else to do something nice for you is like saying life is not enjoyable unless there is someone there taking care of you.

"My belief is that the best chance we have for happiness is to take full responsibility for doing things for ourselves," she said. "That doesn't mean we're leaving out others. It just means that we can't always depend on somebody to be there to care for us. When there is not somebody there, you can allow yourself to care for you."

"Alumni of the pharmacy school classes of 1952, 53, and 1972 will meet the evening of Saturday, Jan. 23, for class reunion activities. At 7:30 that same evening, participants will be able to attend the Ole Miss-Mississippi State basketball game in Tad Smith Coliseum. Tickets may be ordered ahead of time at \$4 each."

"Activities Sunday will include the annual meeting of the Pharmacy Alumni Chapter and a coffee for alumni guests and fifth-year pharmacy students."

Registration fee for Pharmacy Weekend is \$7.50 per person and includes the reception and all other activities. Room are available at the Ole Miss Hotel for \$26.50 (single) or \$30.50 (double) per night. Each dormitory room contains a private bathroom.

For more information or to make arrangements, contact the Ole Miss-Alumni Office, University, MS 38677, telephone (662) 232-1700.

## Pharmacists schedule mid-winter meetings

The annual mid-winter meetings of the Mississippi State Pharmaceutical Association will be held January 24 at the University of Mississippi and February 7 at the University of Southern Mississippi.

According to MSPA President Ray Butler of Gulfport, the program will include a review of the clinical aspects of

clindamycin, a Medicaid update, and a report on nurse practitioners in rural practice.

Legislative and regulatory concerns will also be discussed. The program has been approved by the State Board of Pharmacy for 1.5 hours of continuing education credit for pharmacists.

Among program participants are B. F. Simmons, director of the State Medicaid Commission, and William J. Durand and Otto M. VanDuyne of Houston, Texas.

The Mississippi State Pharmaceutical Association with a membership of over 1,000 is the professional organization of pharmacists in the state.

Pharmacy alumni of the University of Mississippi will gather Jan. 22-24 for the annual Pharmacy Weekend on the Oxford campus.

Highlights of the weekend meeting will include a continuing education seminar, class reunions, a alumni chapter meeting and a coffee.

The continuing education seminar will deal with over

the counter acne products and will count for one hour of continuing education credit.

Dr. Wallace L. Guess, dean of the Ole Miss School of Pharmacy, will direct the session.

Alumni of the pharmacy school classes of 1952, 53, and 1972 will meet the evening of Saturday, Jan. 23, for class reunion activities. At 7:30 that same evening, participants

will be able to attend the Ole Miss-Mississippi State basketball game in Tad Smith Coliseum. Tickets may be ordered ahead of time at \$4 each.

Activities Sunday will include the annual meeting of the Pharmacy Alumni Chapter and a coffee for alumni guests and fifth-year pharmacy students.

Registration fee for Pharmacy Weekend is \$7.50 per person and includes the reception and all other activities. Room are available

at the Ole Miss Hotel for \$26.50 (single) or \$30.50 (double) per night. Each dormitory room contains a private bathroom.

For more information or to make arrangements, contact the Ole Miss-Alumni Office, University, MS 38677, telephone (662) 232-1700.

## Registration set

### Monday at The W

Registration for the seminar at Mississippi University for Women will be Monday, Jan. 23, from 8:30-10 a.m. Freshmen will register from 2:30-4 p.m. Graduate students will register from 2:30-4 p.m. Students interested in attending the Graduate Seminar should contact the Graduate School, University, MS 38677, telephone (662) 232-1700.

**DESTRUCTIVE FORCES**—"Brideshead Revisited," an all-star, 11-part dramatization of Evelyn Waugh's classic 20th century novel, will be presented on "Great Performances" at 8 p.m. Mondays, beginning Jan. 10, on the PBS-TV network, ch. 19. The book tells the story of two young men, the magnetic, brilliant and dissolute Lord Sebastian Flyte and Charles Ryder, a struggling writer whose life is changed forever when he falls under Sebastian's spell during their

vacation. On Jan. 1, Charles (Anthony Andrews) is killed in the destructive forces that hang over Brideshead, the great ancestral home in which they live. The Marquess (John M. Sebastian) and Charles are played by Anthony Andrews and Jeremy Irons. ("The French Lieutenant's Woman," respectively, and also stars Diana Quick. The production was filmed on location in Oxford, Venice, Malta, Goo, London and elsewhere in England. (MERY)

THE MOTHER OF ALL VEGGIE NEWS

### GOOD HOME COOKIN' FOR DOGS AND CATS

You may be surprised to know that homemade dog and cat meals can cost less than half as much as the store-bought variety. And, of course, when you cook up the pet vittles yourself, you'll know they're all good nutritious food...without fillers, stabilizers or artificial coloring.

One of our readers recently sent us a few recipes that her cat has pronounced "excellent." Marian Rogers puts fish heads and tails (yes, from a fish and chip store. They're left over after a fish dinner) in a casserole dish with salmon in steaks. Shredded carrots, onions, pork livers and kidneys, along with chicken livers and hearts.

Ms. Rogers puts the fish heads and tails in a casserole dish, then she puts the shredded carrots, onions, pork livers and kidneys, along with chicken livers and hearts.

The chicken livers, hearts and kidneys are sliced until tender and served whole with the various bones. Occasionally, Marian will add some whole egg or egg food meal when the oven is already hot, just for something else. She'll puree the meat in a food processor with a little water and bake the mixture in a casserole dish in the center. Once it's done, she slices it, grinds it, and serves it with the egg mixture.

Dogs, too, can benefit from homemade dog food. A nutritionally balanced dog food can be made with a bag of dog food, a bag of whole grain flour, a bag of whole wheat flour, a bag of eggs with water.

For FREE additional information on animal health or on THE MOTHER OF ALL VEGGIE NEWS, send your name and address to: "The Mother of All Vegie News," P.O. Box 1122, Bay City, MI 48706.

# IT TAKES BIG DOLLARS

It takes big dollars to serve business, industry and communities with natural gas, particularly since this fuel is being found further and further away from our traditional markets.

Our commitment to our customers is nowhere better illustrated than by our increased capital spending. In 1980 expenditures totaled \$105 million for new onshore and offshore gas supply facilities, maintenance and reinforcement of the pipeline system and joint venture gas supply projects.

For 1981, we are spending \$170 million on community gas supply projects and pipeline facilities. While the price of natural gas in the field is increasing, so is the cost of pipelines and other facilities necessary to bring it where it is needed.

UNITED GAS SERVICE COMPANY
